with law enforcement and for case reviews

EVA SafeView

Experience a new standard of care with EVA SafeView

During the forensic exam, sexual assault forensic nurses make the utmost effort to provide the best possible care and evidence collection for the survivors they work with. EVA SafeView was designed to allow SANE nurses to focus on the patient, while easily capturing forensic findings. Mobile, portable, and reliable, this affordable solution brings cutting-edge digital innovation to SANE visualization and documentation, enhancing the exam experience for both clinicians and survivors.

High contrast red and green filters for improved visualization of trauma and bruising

Digital magnification image and video capture

Smart software with annotation capabilities Intuitive and easy to use

Teleconsultation real time video streaming from the point of care

Foot pedal and clicker accessories for efficient, hands-free image capture

#1

images

31k+
cases
documented

“ The equipment that we have used in the past just felt very bulky and it was very intrusive for the patient. With the EVA System, it is handheld, we are right there...and it is easy to use. ”

Nancy Harris NP-C, NYSAFE, SANE Program Manager at SPHP

LIGER MEDICAL
Innovation for better Women's Health

Liger Medical Solutions for Women's Health A Solution for Every Need

At Liger Medical, we recognize that a medical device system needs to be as flexible as its customers are unique. Whether you're a sexual assault forensic nurse working in the field or part of a hospital team looking to optimize your workflow, Liger Medical has you covered with a range of smart, scalable solutions for women's health.

In 2022, Liger Medical acquired MobileODT and integrated its flagship EVA System technologies into its portfolio.

We're focused on providing cutting-edge medical equipment that adapts to your environment supporting your critical work, no matter where it takes place .
